

All of the benefits of Maltese to simplify your crisis management

Coordinate from a single tool

For your exercises, your monitoring, your cyber incident reporting, your continuity plans, your crisis management... You'll be ready for any event.

Collaborate even under pressure

Thanks to a unique combination of visuals to analyse complexity :
impact cascades, action plans...

Save time reporting to decision-makers

Access the right data when you need it
and stop wasting time on formatting

Collaborate in a secure and robust environment

An independent solution, and control over who has access
to what and how we host your data.

Get started in minutes

Pre-configured templates for continuity plans, crisis handbooks, etc.
Reduce the need for training.

Track what's happening. Stay in control

Plans that you can prepare in advance, and a tracking of
closed events in your logbook.
